Produkt  
Product  
Produit  
Blue and White Airflex® Wypall® L Wipers code 00B

The products manufactured by the company mentioned above are blue and white tissue grades which are used for the manufacture of wipers being used in the food preparation and processing sector.

They were examined by us according to the

"Methoden zur Untersuchung von Papieren, Kartons und Pappen für Lebensmittelverpackungen", Stand 2000, entsprechend der Vorschrift Nr. 80.56 in der Amtlichen Sammlung von Untersuchungsverfahren nach § 64 des Lebensmittel- und Futtermittelgesetzbuchs - LFGB,

("Methods for testing papers and boards for food packaging", state of 2000, corresponding to the method no. 80.56 within the Official Collection of Test Methods according to § 64 of the Foodstuffs and Animal Feed Code - LFGB),

as well as to the

Council of Europe's Policy Statement concerning Tissue Paper Kitchen Towels and Napkins, version 1 - 22.09.2004,

for the used raw materials, fabrication additives and special paper finishing agents as well as for the release of substances which might endanger health.

The specific requirements of the

Guidelines of the Council of Europe on test conditions and methods of analysis for paper and board materials and articles intended to come into contact with foodstuffs, Technical Document no. 2, version 3 of 14 November 2007,

were additionally taken into consideration.

The tissue grades are in compliance with the rules of the

Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC, Official Journal of the European Union No. L 338/4 of 13.11.2004, article 3,

as well as of the

Lebensmittel-, Bedarfsgegenstände- und Futtermittelgesetzbuch (Lebensmittel- und Futtermittelgesetzbuch - LFGB) in der Fassung der Bekanntmachung vom 26. April 2006, zuletzt geändert am 26. Februar 2008, Stand vom 1. März 2008, §§ 30 und 31,

(Foodstuffs, Consumer Goods and Animal Feed Code (Foodstuffs and Animal Feed Code - LFGB) in the version of the notification of 26 April 2006, last amendment of 26 February 2008, state of 1 March 2008, §§ 30 and 31),

and are approved according to the

Deutsche Empfehlung XXXVI zur gesundheitlichen Beurteilung von Materialien und Gegenständen für den Lebensmittelkontakt im Rahmen des Lebensmittel- und Futtermittelgesetzbuches, 34. Mitteilung, Bundesgesundheitsblatt 10, 14 (1967), einschließlich 210. Mitteilung, Bundesgesundheitsblatt 50, 1470 (2007), Stand vom 1.6.2007,

(German Recommendation XXXVI for the health-related evaluation of materials and objects for the contact with foodstuffs in the frame of the Foodstuffs and Animal Feed Code, 34<sup>th</sup> memorandum, Bundesgesundheitsblatt 10, 14 (1967), including the 210<sup>th</sup> memorandum, Bundesgesundheitsblatt 50, 1470 (2007), state of 1 June 2007),

as well as to the

Hinweisen zur Beurteilung von Hygienepapieren, Bundesgesundheitsblatt 39, 123 (1996), Stand vom April 2004,

(Guidelines for evaluating sanitary papers, Bundesgesundheitsblatt 39, 123 (1996), state of April, 2004).

Moreover, they meet the demands of the

Verpakkingen- en gebruiksartikelenbesluit (Warenwet), Staatsblad 558 of October 1, 1979, including the 26<sup>th</sup> supplement of August 2008.

The purity demands of the French

Directive de Good Manufacturing Practice (GMP) pour des papiers et cartons et articles de papier et carton transformé destiné au contact avec des aliments, publiée le 23 mai 1997 de l'Association "Club M.C.A.S. Matériaux pour Contact Alimentaire et Santé (filiale Papier-carton)" et le CNERNA (Centre National d'Etudes et de Recommandations sur la Nutrition et l'Alimentation),

(Guide for Good Manufacturing Practice (GMP) of papers and boards and converted paper and board articles intended for food contact use, published on 23 May 1997 by the Association "Club M.C.A.S. Matériaux pour Contact Alimentaire et Santé (filiale Papier-carton)" and CNERNA (Centre National d'Etudes et de Recommandations sur la Nutrition et l'Alimentation),

are also observed.

Furthermore, they meet the demands of the

Council of Europe's Policy Statement concerning Tissue Paper Kitchen Towels and Napkins, Version 1 - 22.09.2004.

as well as of the

Resolution of the Council of Europe AP (2002) 1 on paper and board used in food contact applications of 17 September 2002,

and of the

Guidelines of the Council of Europe on paper and board materials and articles, made from recycled fibres, intended to come into contact with foodstuffs, Technical Document no. 3, version 2 of 10 June 2004.

Instead of the not yet evaluated Technical Document 1 on constituents, the list of fabrication additives of the German Recommendation XXXVI was consulted.

Thus the tissue grades Blue and White Airflex® Wypall® L Wipers code 00B according to the sample material submitted may be used safely for the manufacture of wipers being used in the food preparation and processing sector. The finished products manufactured with them may come into direct contact with foodstuffs as well as with the human skin and the mucous membranes for a short period of time as far as the mentioned tissue grades are concerned

This certificate of conformity has a validity of 2 years and consists of 5 pages.

Staatlich anerkannter Sachverständiger
